Dear Parent/Carer

**Reference:** Public Health England – latest guidance

In the light of the understandable questions being posed by the Trust's parent/carers community, we have set up a specific page on each academy website to direct you to helpful and reliable information sources.

From this page, you are able to access the latest guidance from Public Health England (PHE) and the most up-to-date advice being issued by the NHS.

The page, entitled Public Health England Guidance, can be found under the **Information** tab of your academy's website. The links are those which are updated by the government on a regular basis with its most recent information.

We continue to ask students, families and staff to remain vigilant throughout this period. PHE says coronavirus presents as: *"Flu-like symptoms including a fever, a cough, or difficulty breathing. The current evidence is that most cases appear to be mild."*

We will continue to pass on to you all relevant information as soon as it is received from central government.

Yours faithfully

**Mr R Reeve**  
Director of Welfare
