

Y6 2024/2025 Curriculum

• Blocks of Work

Each unit runs for a different amount of time depending on which term it is in:

- Autumn Term – World War Two (T1 and T2)
- Spring Term – Glorious Galapagos (T3 and T4)
- Summer Term – Glorious Galapagos (T5) and The Victorians (T6)

This allows time for the end of Key State Two Statutory Assessments Tests in the Spring Term. (SATs)

A typical weekly timetable runs like this – however, Art and DT units will be chunked at certain points in the term and often taught daily to make up coverage.

Retrieval Practice

We use retrieval practice to begin most lessons in order for pupils to remember key information they have learnt. This often takes place in the form of low stakes quizzing.

The Mastery Approach

Lessons are taught to all pupils together (unless SEND information indicates otherwise) following a mastery style. A key aim is for all pupils to be exposed to tasks and learning at a level that develops a deep understanding for all. In most lessons, there will be an opportunity to progress through a set of tasks (practice / application / going deeper).
